

About Able

With over 50 years of experience, Able Australia delivers high quality person-centred disability services to adults, and community supports to seniors.

What we do

Able Australia is committed to living our values - trust, respect, excellence and kindness. In doing so, we work collaboratively with our clients and their loved ones to ensure every day is a better day.

Our passionate staff and volunteers help those we support to reach their full potential. We currently provide services in greater Melbourne, Tasmania, ACT and South East Queensland.

We offer...

- Supported Independent Living
- Day Programs
- Community Access
- In-home Support
- Positive Behaviour Support
- Allied Health
- Deafblind Services
- Community Services for Seniors

Why choose Able?

- Able Australia is a Registered NDIS Provider and a provider of My Aged Care services
- We are a not-for-profit organisation, driven by our values (Trust, Respect, Excellence and Kindness)
- We offer specialist services for people who are deafblind or have complex disabilities (intellectual and/or physical disabilities) such as positive behaviour support, allied health services and art therapy.
- We work in partnership with our clients and families on support needs and to give a voice to important issues

Disability Services

Supported Independent Living

We support you to live independently and work with builders to build brand new, beautiful, accessible homes and have limited vacancies in our existing homes.

Day Programs

We provide daily centre-based programs, group activities that encourage individual participation and choice and have a key focus on person-centred support.

Community Access

We work closely with you and your support networks to identify community-based activities you are most interested in doing, and support you to achieve your goals.

In-Home Support

Our in-home supports can help you continue living independently. Whether you require 4 hours of support, 5 days a week, 24/7 support, or anything in between.

Positive Behaviour Support

Our team supports clients with complex needs and dual diagnosis. Positive Behaviour Support is a client-centred, evidence-based framework used when behaviour places a client or others at risk of harm.

Allied Health

We can work with you to reach your goals with occupational therapy, art therapy and orientation and mobility.

Deafblind Services

With our heritage in supporting those with deafblindness, we have programs specifically designed for people with dual sensory loss or impairment.

Senior Services

Community Transport

We provide personalised door-to-door services to the aged community.

Community Services

We support our community with a number of services including; Food pantry, Meals on Wheels, personal safety alarm installation, active living program, emergency relief services and Community Visitors Scheme.
